CSE Doctoral School Programme

All Staff and Students Welcome

(No registration is required)

Tuesday 5th July 2011 from 12 to 2pm, Newton 233

Title:

Forum Acusticum 2011, Triennial Conference of the European Acoustics Association - Special Doctoral School Feedback Session

Abstract:

Forum Acusticum is the largest triennial conference of the European Acoustics Association (EAA). It focuses on acoustics in general and attracts an international audience of researchers, providing a forum for them to network and present their work. This, the 6th Forum Acusticum, is organised by the Danish Acoustical Society and will take place in Aalborg from the 26th June to 1st July 2011. Prof Andy Moorhouse, Dr Jonathan Hargreaves, Dr Paul Kendrick and Jonathan Sheaffer will be representing the University of Salford at the conference, and will report back on the big topics and papers which sparked their interest in this special session. The following presentations will be repeated, and the conference proceedings will be made available to copy:

“Simulating transient scattering from obstacles with frequency- dependent surface impedance”

“Finite difference time domain simulation of acoustic wind speed profiling”
